

Adaptations & Repairs

"Free help and advice to repair or adapt your home to suit your needs"

Who can use these services?

Anybody living in East Lothian who is aged 60 or over, or aged 50 or over with a disability <u>and</u> you are a home owner or private tenant.

Whichever of our services you want to use, get in touch by telephone, email or via our website:

www.careandrepaireastlothian.co.uk

All of us at some point may need to consider making changes to our home to make life easier and/or to help us maintain our independence. Care & Repair can provide experienced adaptation advice and can assist you with ensuring you have the right adaptation installed and also, where possible, financial support.

This might be for a stairlift, ramp, bathroom adaptation with a wet floor shower or a larger project, including a ground floor bedroom and bathroom.

We work closely with East Lothian Council, when an Occupational Therapist assessment has identified an essential adaptation requirement.

needs

We work with them to ensure the best solution and will guide you through the process, offering assistance as you require it. Practical help with drawings, building work, contractors, permissions, disabled grants and charitable funding.

Repairs

Arranging house repairs can sometimes be daunting but our experienced staff are here to offer advice and support.

Whether it is a leaking roof or a window in disrepair, we can organise the complete work for you and all without a charge for our service.

Contractor's information

If you have a repair and/or improvement and only require the details of a company that can carry out this work for you, we can provide you with details from our contractor list or from East Lothian Council's Trusted Trader list.
